INSURANCE

Please keep the front office notified of any issues or changes with your insurance/Medicaid. If you have specific questions or concerns about your co-pays or coverage in general, please ask Tysha.

POTTY TRAINING APP

Potty Training is a big step in any parent’s and child’s life!

The Little Star Toilet & Potty Training Story App for iPad (\$2.99) is an editable social story to create for your child using your own photos. You can change the text as you need and record your voice on each page so it can be read to your child. The App also comes with a comprehensive tip sheet to give you lots of helpful information on what to do before you start toilet & potty training, during training and also how to keep it up.

Toilet and potty training can be a cause of anxiety for many parents. For some children it may literally happen overnight but for the majority it may take a little longer to get the hang of it. Either way, it is important for you and your child to be prepared for this exciting time in their (and your) life when they finally become a big kid!

The clinic will be closed on the following dates:

* October 22nd-23rd – Fall Break

*November 26th-27th- Thanksgiving

Make sure to keep a lookout for other possible dates for closure this fall.
